

A rustic wooden fence made of logs and branches, with a traditional log cabin in the background. The fence is constructed from thick, weathered logs and branches, tied together with light-colored twine or rope. It runs along a grassy area, separating the foreground from a traditional log cabin. The cabin is built from dark, horizontal logs and has a thick, dark thatched roof. The background is filled with lush green trees and foliage, suggesting a forest or rural setting. The overall scene is peaceful and evokes a sense of traditional craftsmanship and rural life.

Technical drawing of a three-rail fence cross-section and plan view. The cross-section shows three horizontal rails with vertical posts. Dimensions include 130mm for the bottom rail height, 400mm for the spacing between rails, 1100mm for the total height, and 1700mm for the total width. The plan view shows a repeating pattern of posts with 2000mm spacing. Labels 'Poz.1.', 'Poz.2.', and 'Poz.3.' indicate specific components.

Poz.	Nosaukums	Izmērs (mm)	Mērvienība	Daudzums	Mērvienība	Apjoms
1.	Aptēsts stabs ar spicu galu	D~100, L=1700	gb.	95	m3	1,268
2.	Aptēsts stiprinājuma miets	D~30, L~1300	gb.	141	m3	0,13
3.	Aptēsts miets	D~150, L=2000	gb.	144	m3	5,087
